## Strategic Thinking Skills

### Introduction

Every day we are faced with choices and decisions to make. We also face an overwhelming amount of information from a wide variety of sources. How do we know which choices to make & what information to trust?

### Aim

In this course, we will look at how to evaluate evidence and information and make choices and decisions designed to best achieve your goals.

### Topics / Chapters

- Strategic Thinking and its value to Organizations and Individuals
- Identifying Relationships, Patterns, and Trends
- The Role of Curiosity and Seeing the Bigger Picture
- Tools for Strategic Thinking
